Expertise you can trust

Penny Hydraulics Limited offer nationwide, local service and maintenance programmes for vehicle mounted lifting equipment, goods lifts, tyre handling equipment and lighting winch systems.

Our nationwide network of highly trained, specialist lifting equipment engineers based throughout the UK delivers excellent local service and maintenance, repairs and refurbishment services to keep your goods and business moving. Planned maintenance programmes including scheduled annual Statutory Testing give business owners peace of mind that they are complying with current UK legislation.

Our next working day unlimited emergency breakdown service ensures your equipment is up and running in no time. Engineers carry a full stock of replacement parts so that in almost all cases they can fix any issues on their first visit. Our office-based service team remain constantly in touch with the engineers in the field meaning calls will be dealt with quickly by our friendly and efficient staff.

With over 35 years' experience in lifting equipment service, Penny Hydraulics have many special order national service programmes in place for large, multi-vehicle fleets, national restaurant chains, pub companies, hotels and breweries covering multiple sites across the UK.

Your legal obligations

You must make sure your lifting equipment is safe to ensure you adhere to current legislation; Provision and Use of Work Equipment Regulations 1998 (PUWER) and the Lifting Operations and Lifting Equipment Regulations 1998 (LOLER).

LOLER states that you must have lifting equipment thoroughly examined at least once in every 12 month period.

Thorough Examinations are not the same as routine maintenance. Routine maintenance typically involves checking and replacing worn or damaged parts, lubrication, replacing time-expired components, topping up fluid levels and making routine adjustments.

> WHAT WE DO

Our key services include:

- Statutory Examinations & Testing
- Inspection
- Service
- Test Certificates
- Quality Reports & Surveys

Clients include:

Planned maintenance programmes

We offer two planned maintenance programmes, Standard and Fully Comprehensive:-

- **Standard** - pay a set annual fee for two Thorough Examinations per year, plus unlimited emergency breakdown visits. Any parts used after the first year are charged following the visit.
- **Fully Comprehensive** - where equipment is less than one year old, pay a set annual fee for two Thorough Examinations per year, plus unlimited emergency breakdown visits. All parts required are included.

> WHAT'S INCLUDED	Standard	Fully Comprehensive
Annual Thorough Examination & certificate	•	•
Interim Thorough Examination & certificate	•	•
Condition report on each service visit	•	•
Preventative maintenance repairs	•	•
Unlimited next working day emergency breakdown visits	•	•
OEM replacement parts		•

Terms and conditions apply. Full details can be found at www.pennyhydraulics.com

We are always happy to discuss a service & maintenance programme that meets the specific needs of our customers.

Non-contract service & maintenance call outs

We offer scheduled and next working day emergency call outs to non-contract customers - just give us a call to discuss pricing and to book in a visit.

Refurbishment

We can refurbish and upgrade most models of Penny Hydraulics lifting equipment.

Whether it be transferring vehicle mounted lifting equipment such as a crane or tail lift from one vehicle to another, or providing a complete mechanical and electrical overhaul on a goods lift, all work is carried out quickly and efficiently by our highly skilled teams.

> ACCREDITATIONS

- Certified to ISO 9001:2008
- Safe Contractor approved
- Engineers certified under the Construction Skills Certification Scheme (CSCS)

Thorough Examinations are simply a formality in the case of a well-managed and well maintained machine

We've got you covered
